

Remarks/Arguments:

An Advisory Action was received in response to the Amendment Under 37 C.F.R. § 1.116 filed in the above-referenced patent application on September 29, 2008.

The Examiner states in the Advisory Action that the substitute specification submitted along the Amendment filed on September 29th has not been entered because it was not stated in the Amendment that the substitute specification does not contain any new matter. Accordingly, with this Supplemental Amendment, applicants are resubmitting a formal substitute specification. No new matter has been added.

The Examiner further states that a Terminal Disclaimer disclaiming U.S. Patent Application No. 10/527,634 is required. Accordingly, a Terminal Disclaimer to Obviate a Double Patenting Rejection Over a Pending "Reference" Application is enclosed herewith for filing.

With the resubmission of the substitute specification and the submission of a Terminal Disclaimer, applicants submit that this application is now in condition for allowance.

Respectfully submitted,

Christopher R. Lewis, Reg. No. 36,201
Attorney for Applicants
